HOME SWEET HABITAT

Student Name _____ **Date** _____

From the deep oceans to the high mountains, animals live just about everywhere on earth. Where an animal gets its food and water and has space and shelter is called a ***habitat.*** *A habitat can be big or small, but the animals that live in it have everything they need to survive and reproduce* ***offspring*** *(babies).*

Instructions: At Micke Grove Zoo, draw exactly what you see in the radiated tortoise exhibit in the first box and the golden-lion tamarin exhibit in the second box. Do you notice how these exhibits and the animals in them look and behave differently from each other?

Draw what you see!	**Radiated tortoises** LOOKS LIKE: MOVES LIKE: SOUNDS LIKE: EATS: **REPTILE**

Draw what you see!	**Golden lion tamarins** LOOKS LIKE: MOVES LIKE: SOUNDS LIKE: EATS:  **MAMMAL**
